

# HERSCHEL<sup>®</sup>

the future of heating – today

## Introducing the all new Herschel SELECT XL, our best ever performing heater

The new SELECT XL is a high quality, frameless panel heater featuring Herschel's latest COSIX cell heating element technology and EASYFIX mounting system.

### KEY FEATURES

- Herschel COSIX cell technology, up to **10% more effective output**
- Sleek and stylish frameless design in high quality aluminium
- Featuring the Herschel EASYFIX mounting bracket, the easiest and most secure mounting system on the market

- TUV, CE, RoHS and REACH approved/compliant
- 4 Panel sizes 250w to 1000w
- 5 year warranty

**SELECT XL** will change the electric heating market forever. The **SELECT XL** range is the best performing, high quality frameless panel available at a price point targeted specifically at commercial end customers.

**SELECT XL** is on extensive trials to compare against conventional electric convection heaters with leading hotel, student accommodation and residential providers, and is already providing energy savings of up to 60%.

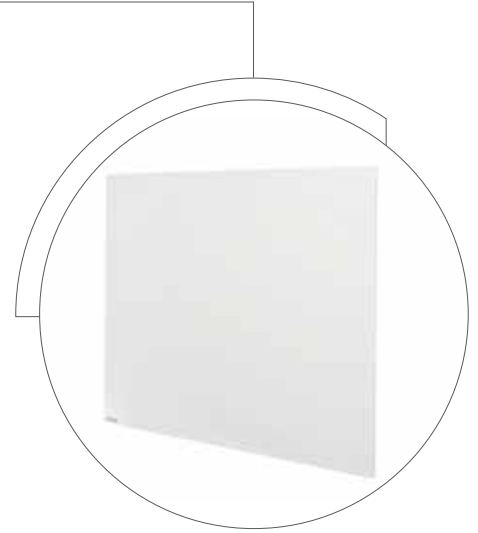

Easy to install, sleek and stylish, maintenance free and offering maximum performance, Herschel's **SELECT XL** is set to become one of the biggest selling heater ranges in Europe.

The **SELECT XL** is designed to deliver market leading performance and quality at a price level which will bring Herschel far infrared to the mass heating market. Ideal for many applications including residential, offices, hotels and student accommodation.

The most cost-effective and efficient frameless far infrared panel heater on the market, the new Select XL from Herschel is ideally suited to the commercial sector including hotels, new homes, student accommodation and rental properties.

The new frameless Select XL range is available in 250 W through to 1000 W and employs the latest, newly developed Herschel heating element which is up to 10% more effective than competitor products.

With a high quality aluminium casing, the Select XL features Herschel's new and innovative easy-fix bracket. No other system is as simple to install and as secure once mounted. The discreet, ultra slim, white panels are designed for ceiling or wall-mounting and will complement any interior. They are TUV approved, have an IP44 rating and come complete with a five year warranty.

#### TECHNICAL DETAILS

SURFACE:	Aluminium
COLOUR:	White
HEATING ELEMENT:	Herschel COSIX® Cell Technology
REAR PANEL:	Aluminium with Herschel EASY-FIX system
FRAME:	Frameless
SURFACE TEMPERATURE:	App. 85° C - 95° C
VOLTAGE:	230/240 V, 50 Hz
PROTECTION CLASS:	IP 44
CABLE:	3 m power cable
INSTALLATION:	Wall or ceiling mounted
CERTIFICATES:	  
WARRANTY:	5-years

UP TO **60%** IMPROVED HEAT EFFICIENCY

#### AVAILABLE MODELS

Model	Part No.	Dimensions	Weight	Rated Power	Heated Area
<b>SELECT XL WHITE</b>	XL-HS250-W	30 x 90 cm	4,7 kg	250 W Wall mount	4 - 6m <sup>2</sup>
				300 W Ceiling mount	5 - 7m <sup>2</sup>
	XL-HS300-W	60 x 60 cm	5,7 kg	300 W Wall mount	5 - 7m <sup>2</sup>
				350 W Ceiling mount	6 - 8m <sup>2</sup>
	XL-HS600-W	65 x 100 cm	11,3 kg	600 W Wall mount	11 - 13m <sup>2</sup>
				700 W Ceiling mount	13 - 15m <sup>2</sup>
XL-HS850-W <i>(ceiling only)</i>	85 x 120 cm	16,3 kg	850 W Ceiling only	19 - 21m <sup>2</sup>	
XL-HS1000-W <i>(wall only)</i>	85 x 120 cm	16,3 kg	1000 W Wall only	19 - 21m <sup>2</sup>	

#### SIGNIFICANT ENERGY SAVINGS

Far Infrared heating panels offer owners an unprecedented level of control over their property's temperature and energy use.

Installations using our panels optimally zoned and controlled can save between 30 – 60% of the energy consumption of traditional solutions including gas, oil and other electrical solutions.

NO WASTED ENERGY MEANS EXACTLY THAT **100%** OF THE ELECTRICAL ENERGY USED BY THE HEATING SYSTEM IS CONVERTED INTO HEAT
